Ir is autiafactory to observe that the Chairman of the Sanitary Board straightforward ly admitted that he had done wrong in postponing the meeting, and that, on being reminded of that fact by Mr Francis, he at once called the meeting. In so doing Dr Ayres has recognised the necessity for adhering to Standing Orders and Rules, agreed to only a few weeks ago, by the Board itself. Mr Francis put it that, had the adjournment or postponement of the medding been done with the consont of the Board, then the postponement would have been in order; and we see no reason why this form of procedure should not be adopted. As Mr Humphreys said, they might have been let off without a meeting, as there was little to do save the adjournment. At the same time these things mus be done 'strictly in order,' and no member of the Board has any right to suggest that anything should be done whether it strictly in order or not. The rules of the Board are more important than the personal convenience of members; and it was gratifying to find that Captain Deane, recognising this fact proposed the as, although the President had no power to had adjourned, he had ample power to call a meeting when he deemed it necessary to notion that all this is very hypercritical procedure; but nothing which serves to of the biggest reforms yot seen in this for the Colony yet: The Bye-laws ere long upon a proper basis.
